

Form and Analysis
Second semester
Day 02

More of ternary expansion

Composite ternary

- Forms that contain other forms as components are **composite forms**
- Also called **compound forms**:
 - Compound ternary, composite ternary:
 - Instrumental version: Minuet-trio
 - Vocal version: Da capo aria
 - Sonata, rondo, etc. are composite forms

Minuet-trio

- We've seen a number of these
- Minuet is usually binary, rounded binary, or ternary
- Trio is also usually binary, rounded binary, or ternary

Minuet-trio: Haydn Piano Sonata in C major, iii

Ternary expanded: Beethoven Op. 7, ii

- Analyzed part 1 last semester
 - It is a small form (ternary).
 - And it is part one of a larger ternary form, therefore is is a composite ternary

Plan:

Follow outline

Provide copies of Beethoven

One group recalls ternary of part 1

One exams part 2

Connections?

Coda?

Convince me!

only project minuet-trio
